What Problems Lie Beneath the Surface?

Your LEAN Expert

## JMAC Plant Diagnosis

We provide a quick (usually 3 days on site) and focused analysis of your current operations. You will be provided with a clear direction and solutions to solve your company's problems.

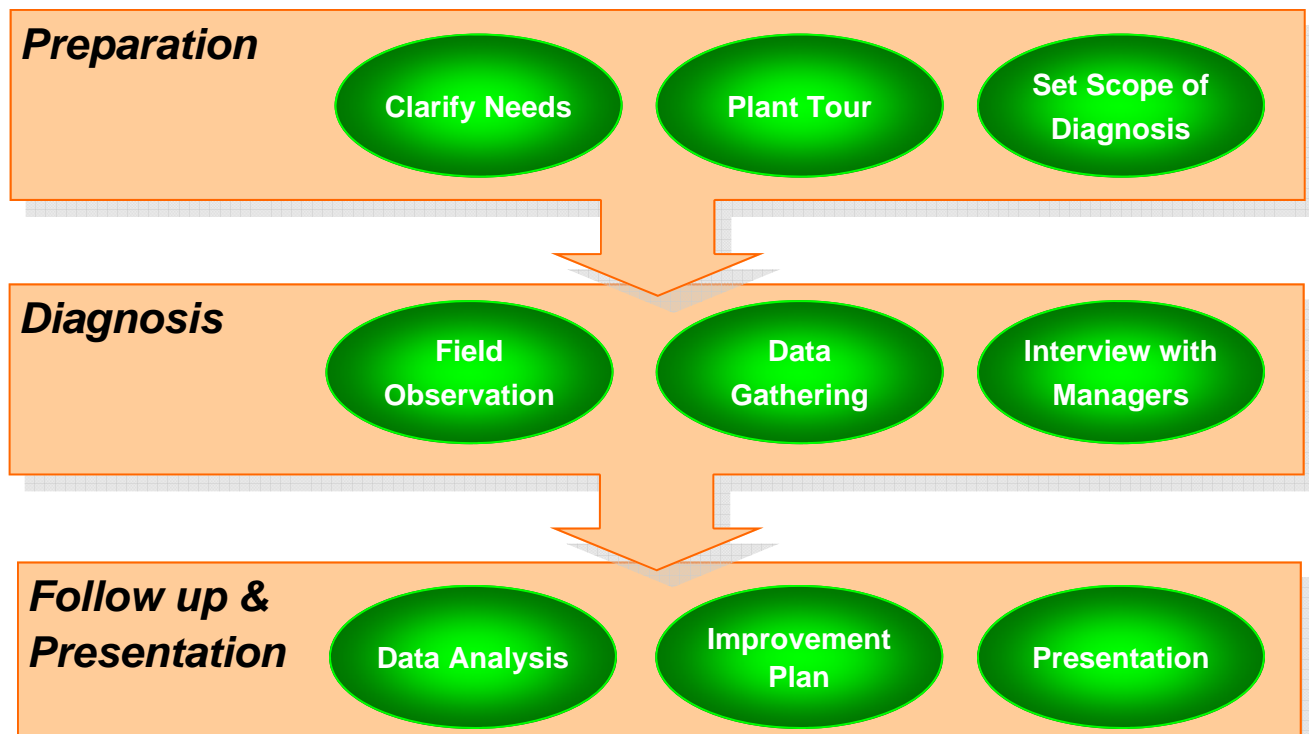

### Our Plant Diagnosis may be right for your company if:

- *You are interested in knowing your company's position amongst world-class manufacturers.*
- *You are interested in determining your company's full potential.*
- *Product demand is outpacing production capability.*
- *Previous improvement efforts have failed to improve your bottom line.*

## Our Experience

As one of the first consulting firms to develop an effective plant diagnosis service, we have assisted thousands of companies around the world in identifying improvement opportunities within their organization.

### JMAC Diagnosis Procedure

***“We were amazed that in only a few days, JMAC was able to provide us with such a thorough examination of our operations. They were able to quickly identify improvement opportunities within our organization and provide a plan for us to meet our 2010 business strategy goals”*** (VP: Tier One Lawn and Garden Equipment Parts Supplier)
